THE PRESIDENT.

OFFICIAL BULLETIN. ELBERON, N. J., September 8, 8.30 A. M .- At the morning examination, made at 8 o'clock, the President's pulse was 104, temperature 98.7, and respiration 18. He was restless and wakeful during the early part of the night, but after 12 midnight, slept well until morning. His general condition appears more encouraging.

Mr. TRYON, Sept. 2, 1881. DEAR POST :- Your correspondent has visited the celebrated Thermal Belt; of which we have heard so much. The The Thermal Belt is certainly warmer in summer than is the country up on the mountains, and it must be a warm, said to be so thermal as to prevent the killing, or hoar frosts in the early foot of the Blue Ridge, and at a point where the Ridge turns from its general direction, thus presenting to the sun a sunshine. All kinds of fruit do well, but the peach, pear and grape are probably the most profitable and most perfect in growth and quality. Lands can be bought in this valley for from five to twenty dol-

The mountain timber, most of it inaccessible, is prodigious in growth. I saw hickory trees alongside the railroad booming up from ravines below fully one hundred feet to the limbs, straight and of uniform size all the way-such magnificent timber! At Tryon depot the railroad from Spartanburg to Hendersonville begins to ascend the mountain, and going up, when you reach Saluda, twelve miles from Tryon, you are practically on the top of the Blue Ridge. This road will go through to Asheville before a great while, it being already graded most of minus at Hendersonville. The scenery along the road from Saluda to Tryon is wonderfully grand and touching. I wondered what, on that precipitous grade would be the result if our iron horse should get unruly and tear away from its master's control! A strange feature, indeed, is so much level country on top of the mountain. A stranger, blindfolded and brought to Hendersonville, on the top of the Ridge, would suppose from the level country around that he was one hundred and fifty miles east of the Ridge, unless his eye fell upon some of the more elevated peaks ome miles distant. A wonderful country, indeed! Yours, truly,

Mountain tunnelling is a far less expensive and laborious business than it was several years ago, as statistics for work at present going on in the Alpe and for work already accomp there strikingly show. While Mont Cenis was bored at the rate of 1,112 meters a year, and the St. Gothard at the rate of 1,670, the Arlberg is ex- treaty. pected to be pierced at the rate of 2,160. The cost per running meter of Mont Cenis was \$2,000, but the ontlay on the Arlberg will not exceed \$750. The chief difficulty in Alpine work does not lie in quarrying out the passageway, but in getting rid country, and the vast continuous lines of the dirt and rock after it has been of steamers, railroads and stages. It is taken down.

One of the principal subjects of discussion in Democratic papers at this period of the Dog-Day madness, is the Ears of Whittaker, This "hefty" subject is so peculiarly fitted to the genius of the Democracy, that it at present is undoubtedly one of their leading measures. It has been discovered, so they claim, that the Cadet Whittaker cut off his own ears and that fact has contributed more to build up and unify the Democracy and establish it on a firm basis than did the Tilden ciphers and the patriotism of Tweed. It outruns all the Potter Committees, and kuklux-klandoms, and sagacious legislation of southern politics, than all these conjurations and conspiracies ever conceived of.

Every day brings renewed assuran ces that the cotton exhibition at Atlanta will prove an unbounded success .-The matter of state representation there has been taken hold of by the Governors of nearly all of the southern states, while individuals, firms, corporations and associations at the north are taking steps to display appropriate machinery, which will be put in full operation, mannfacturing every variety of fabrics into which cotton goes as a chief constituent. Besides displays of raw cotton and cotton in different stages or manufacture, and cotton manufacturing and other machinery, there will be extensive displays of native metals, ores, minerals and woods by several of the southern states, North Carolina having a competent commission in Atlanta now arranging for an exhibition of most of the rich, valuable products of the Old North state.

A REMARKABLE JOURNEY.

Never has been known on this con tinent a progress so remarkable as that which was made on Tuesday last,-Verily, may it be said, after the manner of Evelyn, that the King has returned from his progress. He sallied out from Elberon in high hopes and aspirations. He encountered amount and calamity, and the languor of the suffering couch, and the writhing of pain; and bouyed up by the pealing bells, and the deeptongued organs, and bowed heads o millions of the Nation which had made him their Chief, putting forth to God supplications and prayers for his recovery, he approached again the weling voice of the ocean. Such was the drama which was crowded into a day!

principles of human rights, could equal the generous benevolence which has poured out like the great river, swollen and kingly within its banks. There will be instilled into the public concience of this powerful and opulent Nation what is holier and nobler than what goes by the name of patriotism because it will be those loftier principles which contribute to the welfare of a people. The principles which go to constitute national solidity in a people will come out of this disciplining experience through which we have passed and the great lessons which it has taught.

CHILI AND THE ARGENTINE

REPUBLIC. Hon. Thomas A. Osborne, of Kansas, who has been recently transferred from Chili to Brazil, and who is fully familiar with affairs in Peru, Chili, Bolivia and the Argentine Republic, gives a correspondent of the Tribune a very lucid statement of the results of the late treaty of July 23rd, between these two Republics, Chili and the Argentine Republic. It practically united the two water-sheds of the lower Andes, giving Chili and the Argentines a parity of privileges in the routes between the two, dividing Terra del Fuego and certain territories north and east of it between the two Republics and making the straits of Maggellan forever free to all nations of the world. Each of these nations have coveted these privileges. which are now proposed to be held mutually. Mr. Osborne believes that both the Congresses will accept the

PARTY SUCCESS. Some of the Democratic journals

Some of the Democratic journals look upon prohibition as a scheme originally gotten up by Republicans to distract and disintegrate the Democratic party. We wish this and some direful prognostications floating about were true. To us the political outlook is anything but cheerful to the Republicant of the state of the cans, either in this state or the nation Prohibition has brought as much dis cord to the Republican ranks as to the Democratic. Leading Republicans fa what is claimed to be the ac tion of the Republican State Committee, shows a breach in our party which cannot well be healed. Among the prohibition leaders are Republicans who were at the birth of the party, and who nourished and protected it in the dark days of reconstruction and kuklux rule, when many of the loud mouthed, would-be leaders of to-day were seeking its life. We look with concern on any circumstance which place in hostile position such men as Judges Reade, Dick, Russell, Henry, Seymour, Buxton, Major Smith. Holden, David A. Jenkins, Mr. Ball, Sheriff Manning, Congressman Hubbs, Col. Ike Young, Judge W. A. Moore and many others. When these fathers of the party see fit to denounce our organization, we think the end has come. Without them and their aid our party in this state will be buried out of sight. The time has come reasonable discussion about the dangers which beset us. The Federal pat age in North Carolina is now for the most part distributed in such a manner The course of this administration in regard to patronage in this state so far may be safely said to have cost us 10.-000 votes. The "cohesive power of public plunder," and the morbid desire o hold office, has brought us to the brink of destruction. We have in our state many as desperate as Guiteau on the office question. They think of nothing except office, and what influence moncy may bring. To secure po-sition they will libel, slander, defraud, or do anything to accomplish their purposes. Such a state of affairs can only end in the destruction of the Re-

oublican party. - North State. In the first place, who are these 'loud mouthed, would-be leaders that were sceking the life of the Republican party in the dark days?" In the second place, nearly all the names mentioned above have long since left the Republican party, or signified their intention of doing so. In the third place, Young and Moore were openly against the prohibition bill, and Hubbs and Manning were too loyal to their party to fight against the advice of the State Committee. There is no division in the Republican party. We do not deny that there are a few who have been working for years for an excuse to leave the party, and God grant this prohibition question may furnish them sufficient grounds for doing so and the

The patropage that the above article complains of, we are sorry to state, which we are compelled to do, and defy contradiction, that nine out of every ten federal official to-day holding office were appointed, or kept in office during the time that the editor and proprietor of the North State held the dictatorship of the Republican party. But since this would-be leader finds that he cannot control, he is determined to ruin and wreck the noble old Republican ship of state, which we are pleased to say, he and all his sorehead associates of the state can not do. well how to keep her sailing, and will in 1884 bring her into the herbor of safety with a Republican victory of at least 25,000 majority.

The New South.

The value of the south as a field for railway development consists in the fact that this is a field of continued growth in production, in commerce, from an already solid basis, adequate as it is to furnish fair profits to transportation lines. Investors in the west may expect speculative opportunities, great fluctuations with chances for sudden great profits, but the business there is largely speculative and the time of actual realization, though reasonably certain, unknown. The south offers, to start with, a production beyond any former experience, a manuacturing growth, a mining develop ment which is wonderful, a marvelon recovery from war, a social progress of great value in estimating the permaency of the progress in other respects and their certainty of steady, uninter rupted prosperity. Investments will be made with the absolute certainty of yearly increasing profits, of a gradual wholesome progress. Perhaps this is not the field for those who desire to create fortunes in an hour. We hope never to see that sort of progress in the outh. It offers safe, sure and contin ous returns to prudent capitalists seek ing permanent investment. - Noshvill

6:30 A. M., TRAIN OFF FOR LONG BRANCH -PRESIDENT'S TRAIN AR-RIVED AT LONG BRANCH AT 1:09 P. -AT 1:20 P. M., PRESIDENT IN ELBERON COTTAGE-PULSE 102.

September 7, 1881. The President, on the same couch or which he had so long been aick, was borne to a soft-springed Express wagon from the Executive Manaion, and placed on a palace car, the horses being each guarded by a man at his head and preserved at a walk.

Though they met with some slight difficulty in doing this, owing to the fact that the floor of the car was rather high, the delicate task was performed uccessfully and without appearing to disturb the patient. When inside of the car he was transferred from the bed on which he had been carried thus far and placed upon a spring bed which had already been prepared for his reception. The remainder of the party having already taken their seats, the ignal for departure was given, and, amid silence, the train at 6.20 began to move. A delay of some minutes intervened, however, but at 6.30 exactly the train started on its journey. The party who accompanied the President, exclusive of the railroad attaches, consisted of twenty persons, as follows:-Mrs. Garfield and daughter Mollie; Drs. Bliss, Agnew, Barnes, Woodward and Reyburn; Col. and Mrs. Rockwell and their daughter Lulu: Gen. Swaim. Col. Corbin, Private Secretary Brown, Dr. Boynton, Messre. Dr. Edson, C. O. Rockwell and Warren S. Young. The colored servants, David S. Prigg, Mary White and Elizabeth Cutler, also accompanied the party.

BALTIMORE, MD., September 6, 7.30 A. M .- The train bearing the President passed Bowie, seventeen miles this side of Washington, at 7.18, Philadelphia time. The following dispatch was thrown off: "The President, is so far, like to increase the speed when it can

be safely and comfortably done." BALTIMORE, September 6 .- The train with the President passed Union Depot, in this city, at 8.20 A. M.

BALTIMORE, September 6, 8.20 A. M The President has stood the fatigue of travel up to this hour with remark able fortitude. His pulse is even less frequent than it was before leaving Washington. It is now 106. The arrangements are so complete in every detail that the inconvenience to the President is reduced almost to a mini-Republican party will gain fifty votes lying is so carefully adjusted that the through which the road from Camp for every one of them who may depart vibration is hardly noticeable. He was more restless than usual last night, being evidently somewhat excited by the anticipations of the journey. This morning at 5 30 o'clock his pulse was 118, temperature 99.8, respiration 18.at 6.30 a. m., and owing to the admirable arrangements made by the Pennsylvania Railroad Company, and to the ingeniously arranged bed designed by Mr. T. for the President, the special car of President Roberts for Mrs. Garfield, pecial car of another Eastlake car. The President fitted up for his use at Altoona. The seats were taken out, a false top put on few inches above the roof, in order to allow the air to circulate between it and the roof. Wire gauze is drawn about the outside of the car to keep out the dust. Heavy curtains are hung inside, and a Brussels carpet covers the floor. Boxes filled with ice are in the appartment where the Presdent's bed is. The bed will be placed in the centre of the car, and precautions have been adopted by weighing down the running gear to prevent any motion.

It is intended that no noise of pass ing trains shall disturb the President. and for that reason trains going in opposite directions will wait until the special train shall pass them. The same rule rule will be adopted on the way from Baltimore to Philadelphia. The railroad people will have decided to leave the question of the rate of speed to the surgeons who have charge of the President's case.

The President will occupy Mrs. Chas Francklyn's cottage near the Elberon, while the rest of the party will be quartered in the hotel.

INDIAN MASSACRE.

Another Indian affair as bad as that of the Custar has occurred among the Apaches. The first news was from General McDowell's headquarters -Pedro's band attacked Fort Apache but the commander of the department thinks that he must have been repulsed mum. The bed upon which he is now and that he now holds the canyon been received regarding the reported massacre of General Carr and his command, but the officers there infer that that an outbreak on a serious scale has taken place. A company of the First Cavalry, stationed at Camp McDermit. and another at Camp Halleck, Nevada. and a company of the Eighth Infantry, at Benicia, have been ordered to start for Arizona."

ALL MASSACRED. SAN FRANCISCO, Sept. 3 .- A Tucson dispatch to the Star has advices from Fort Grrnt to the following effect:-Three couriers have now come into Camp Thomas, all bringing the same news, that General Carr and company have all been massacred by White Mountain Indians, thirty-five miles from Camp Apache. One hundred and ten men and seven officers were killed. The officers must be Gen. Carr, Capt. Henleg, Lieutenants Carter, Gordon, Stanton, Cruse, and Dr. McCreery. The White Mountain Indians' reservation is located about 1860 miles north o Wilcox, near the line of New Mexico. The tribe numbers about fifteen hundred in all. They can muster four handred warriors. This is the tribe of Apaches which have not be whipped into subjection. They were moved in 1876 into the San Carlos reservation, but were recalled and returned to their old hunting ground, where they have been ever since

The Heroine of the White House From the Washington Post of the 29th ult According to Captain Henry, of the Presidential household, the first stamheld a hasty consultation and made one or more effort to struggle against what appeared to be the inevitable dethe report is essentially correct, and cree of fate. In spite of every effort they could make, it seemed that the patient was rapidly sinking, and his tenure of life only a question of a few minutes or hours. The greatest crisis of all had apparently arisen. Another consultation, and it was decided that Mrs. Garfield should be immediately notified to prepare for the worst. Having come to this determination, two of the number visited Mrs. Garfield in her room and plainly laid before her what they believed to be the real terrible tacts in the case. They said that it was useless to struggle longer; that even what they could do was little, and the limitation of surgery had been reached. They stated the situation as tenderly as possible, and asked that she no longer delude herself of the idea of there being any hope of recovery,-This was the first time they had formally given up the case. It was then that the pluck of this brave little woman came to the surface. Every feeling of love, and duty, and tenderderness of the wife and mother, came uppermost in an instant. Rising erect before them and firmly setting her lim re them and firmly setting her lips against the expression of the emotion that struggled for utterance, she brave

Almighty God, within wh se hands,
All destinies are held,
To Thee our common prayer asceads,
By common wee impelied.
Behold at Thy eternal throne
A Nation supplicant,
Whose cry is heard in every zone—
God save the President.

Oh! let Thy interposing power
Come swiftly from above.
To break the deathly clouds that lower
Around the people's love.
Our trost is placed alone in Thee,
Lord God Omnipotent,
And millions yo'ce the tearful plea—
God save the President.

Father, turn not, turn not away
In this our needlest hour;
Ordain not to the worm and clay
The land's most precious flower.
The people's hearts throb now as one,
As one our tears are spent;

Our tears arise in unison— God save the President.

NEW BOOKS.

THE HISTORY OF THE PRIMITIVE YAN KEES, BY WM. MACON COLEMAN.

And now comes the author and says that Plymouth Rock ought to be consigned to the tomb where sleeps the story of George Washington and his little hatchet. We are gravely informed in this history that the received accounts of the doings of the Iilgrim Fathers are as mythical as Straus represents the life of Jesus. We are told that so far from being Puritans or the descendants of Puritans, they were expelled from England with the unanimous consent and approval of the Puritans. We are told that they were communists, free lovers and turbulent demagogues, that they went to Holland heping to find sympathy with the remnants of the old Anabaptist outlaws in that country, that they abused the hospitality of the Datch, that they formeriy retracted their faith in hopes of obtaining permission to form a Church of England council settle in Virginia, that this being refused they next attempted to rob the Dutch of their lands on the Hudson, that they sailed like Buccaneers, that Robinson's farewell sermon was a forgery by Gov. Winslow, that Robinson was a trickster, that he helped to hound down Barneveldt, that he was finally burned in the Potter's Field, &c., &c. There is a show to make out these allegations by a great THE NATIONAL REPUBLICAN parade of authorities cited. The whole work is a piece of special pleading. The author is a lawyer and understands his business. The work is written nervously and compactly with clearness and force like a brief, the style is bald without the least attempt at fine writing. There are no epithets or yulgar abuse, but if the "Yankees" want to see the that have ever been said about them

The Meriden Daily Republican of Connecticut says: "John B. Gough's new book is attracting wide-spread attention. It is the most fascinating book of its character in print, and the name and fame of the author gives it a new interest. Before long it will become a common inquiry, "Have you read Gough's new book?" We advise all to procure a copy of this rentarkable book, which is now having a very large sale. The publishers have to the kitheir best energies to supply the demand, for the name and fame of grand fame of John B. "THE BRIDAL EVE."-Mrs. E. D. E. N. Southworth's powerful and highly absorbing novel "THE BRIDAL EVE," is shortly to be issued by Messrs, T. B. Peterson & Brothers of Philadelphia, Fa., in excellent style at the exceedtagly low price of seventy five cents a copy. This fascinating story deals with lore, romance, crime and woman's devotion, and has a plot of the most ingenious description. The scene is laid in England, and the characters mostly more in high social circles. The cheapness of the work should give it an immense sale. Everybody will be de-

dit and Finance, Application from Mr. Loeb, to erect steps on Princess street, was referred to committee on Streets and Wharves.

Alderman Chadbourn offered the following resolutions, which were unani-

mously adopted:

Resolved, That we deem it eminently proper that a time should be set apart for supplications for the recovery of our Ohief Magistrate; the gloom which has pervaded this country for the past two President invokes the deepest contri-tion of the spirit, as the ultimate re-covery would be hailed with the intenby every American citizen; and that his present ameliorated state, snatched as he has been from the jaws of death, is an exceedingly great cause for thanksgiving, and an incentive to prayer for his continued improvement and final restoration to health.

Resolved, That our merchants and husiness man has requested to close their

business men be requested to close thei places of business between the hour of 10 a.m. and 12 m. on the 6th inst and that the citizens generally are re-quested to repair to their respective places of worship, in accordance with the proclamation of the Governor.

The Board then adjourned.

COUNTY COMMISSIONERS.-The Board met in regular monthly session Monday afternoon, at 2:80 o'clock, present, Mr. Bagg, the Chairman, and Commission-

for the month of August, showing a balance on hand, as follows:

General fund - - - - \$17,900.98 Special fund - - - - 802.48 Educational fund - - 7,947.88 The following persons were granted license to retail spirituous liquors for twelve months from the 1st of Septem-

ber: Claus Riditons, J. C. Long & Co. It was ordered that R. K. Bryan, Jr., and W. B. Canaday be allowed to list their taxes.

It was ordered that the valuation of lots parts 4 and 5, block 235, property of J. F. Gilbert, be reduced to \$800 to correct clerical error.

Stacy VanAmringe, Clerk, at the suggestion, and with the endorsement of members of the Bar, made application for appointment to arrange and simplify certain records which are in a disordered condition from being re-moved to one of the adjoining counties during the war. Referred to the Fi-

License was granted John H. Harpe to peddle goods and merchandise in the county upon his paying the state tax to the Sheriff.

The Board proceeded to revise the jury list, and after completing the same drew the entire venire of jurors for the October term of the Criminal Court, as

BOARD OF AUDIT AND FINANCE .-This Board met in regular session on Monday afternoon.

The committee of Conference on the proposition of the Wilmington Market Company reported, and submitted the following resolution:

Resolved, That this committee of Conference decline the proposition of the Wilmington Market Comoany, and are unable to agree upon a counter proposition to recommend to their respective bodies. They therefore respectfully request to be discharged from further consideration of the subject. The resolution was adopted, and the

committee discharged from further consideration of the matter with the thanks of the Beard, A petition from street hands for increased pay was received, and consid-

five dollars per week was authorized. The Herald correspondent was, at the hour when the President was being conveyed from the White House to the Express Wagon, in a position to get a good look at him, and writes of his ap-

ered, and an increase of said pay to

He looked careworn and feeble, and there was the usual sickly pallor of countenance, but he did not show that emaciation and cadaverous appearance that one would naturally expect to see in a man who had gone through the terrible ordeal that has fallen to his lot for the past nine weeks. His eyes were open and clear, no sunken eyes and cheeks were visible, but a re-markably natural look clung to his complacent demeanor. He bore no re-semblance to a man on the verge of the grave, but appeared to possess considerable life. Those who were fortunate enough to get a glimpse of him were agreeably disappointed, and his actions spoke louder than a hundred favorable

ulletins. He was interested in all

A very prominent official said en-thusiastically within my hearing, "I have thought all along that he would not survive this illness, but now that I see him I am confident that he will squeeze through all right,"
